SINAI HONEY

Sinai Honey is a leading Egyptian brand, specializing in the product sales of honey bees.

Sinai Honey started with a group of physicians, nutritionists, and natural food scientists who were passionately infatuated with nature & what it could offer to our own health.

WHY SINAI HONEY?

- One of the leading honey manufacturers in the Middle east.
- High-quality Sinai honey contains many important antioxidants. These include organic acids and phenolic compounds like Flavonoids

Our honey is freshly extracted throughout each season and blooms or nectar flow, with the exception of winter where we are thankful for the leftover spring and summer harvest and anxiously await the spring again. Most of our wildflower honey contains Orange Blossom, Saw Palmetto, Mangrove, Brazilian Pepper, and other native plants that are in abundance.

we are Providing Natural solutions for consumers by offering them products that help them achieve their health & wellness equilibrium. It is all about people who like to maintain a healthy lifestyle, and believe that their health is the best investment they will ever make!

- our company provides high-quality mountain bee honey products and offers its products of the finest and purest types of honey to its customers the company has followed a policy of quality auditing for all stages of production and packing after-sales service

SINAI HONEY
100% natural

ACACIA HONEY

Acacia honey is created with the nectar from black locust trees, also known as false acacia trees. For this reason, it is sometimes sold as "locust honey" in the United States. The honey features a sweet, delicate flavor with a hint of vanilla and a light, almost transparent color.

Likely due to its higher fructose content, acacia honey takes longer to crystallize. As a result, acacia honey is a great choice for smaller establishments that may take a long time to finish a jar of honey.

- Recommended for table use, cooking, and baking
- Commonly used in yogurt, cereal, teas, drinks, and desserts.

ST CATHERINES HONEY

It is a new source of energy and contains vitamins that work to compensate the body for what it loses of mineral salts vitamins and sugars consumed due to physical effort and is extracted from the saint Catherine mountains of Sinai.

Propolis is a substance collected by bees from the bark of trees and flower buds and plants it is also called bee glue and bee glue or fragrant. it is considered the strongest natural antibiotic with a superior ability to kill many types of fungi, bacteria and viruses a powerful treatment for wounds cuts and burns and helps speed tissue formation and wound healing it is a powerful remedy.

SINAI HONEY
100% natural

GINSENG HONEY

grow on volcanic mountains in Korea and Japan, and was the most famous herbs that have been used over a long time.

It contains ginsenoside, which helps to stop the deterioration of memory for the elderly - Works on the balance of hormonal activity and strengthens and helps burn fat accumulated in the body.

-works to reduce blood cholesterol and protect against infection It is a general tonic and a good nerve tonic and is considered a strong sexual tonic.

Red Korean Panax Ginseng Root Powder in 100% Natural Bee Honey from sinai honey Helps improve your intake of essential nutrients .

May help revive and restore vitality.

Used daily as health food

WILDFLOWER HONEY

Wildflower honey features a select blend of wild blossoms and flowers. Because wildflower honey is collected from any variety of wildflowers depending on the season and region that they're in bloom, it may originate from any country that grows honey.

Its taste varies depending on the flowers it is created from. However, it's typically slightly darker than other honey varieties, adding a robust flavor to baking recipes.

- Recommended for cooking and baking
- Commonly used in muffins, meats, and breads.

SINAI HONEY
100% natural

EUCALYPTUS HONEY

Gathered from the flowering eucalyptus trees of Australia, this distinctive honey has a sweet flavor offset by cool undertones of fresh eucalyptus.

Eucalyptus honey has a slightly medicinal scent. Because of its menthol-like properties, this honey is great for soothing coughs, colds, and upper-respiratory infections. Eucalyptus honey features a mild flavor, making it easily palatable.

- Recommended for table use, cooking, and baking
- Commonly used on toast and in teas and pastries.

CREAMED HONEY

While it's not technically a type of honey, creamed honey denotes a special way of preparing honey. Also known as spun honey, it is made by storing honey at a temperature of around 55 degrees Fahrenheit and letting it crystallize. Creamed honey has a richer, creamier texture than traditional honey. It also typically has a much lighter color than liquid honey from the same flower.

The crystals in creamed honey create a smooth and easily spreadable product. It's a great addition to breakfast spread offerings and adds interest to any menu.

- Recommended for table use, cooking, and baking
- Commonly used as a spread on bagels, toast, and biscuit.

SINAI HONEY
100% natural

ORANGE BLOSSOM HONEY

Fresh from the spring blossoms of Florida's orange groves, orange blossom honey features light citrus undertones. It has a golden color and a wholesome, sweet taste and aroma.

The citrusy elements of orange blossom honey add an exciting element to baking endeavors. Try blending it with softened butter, orange rind, and lemon rind to create orange blossom honey butter, which is sure to become a popular menu item.

- Recommended for table use, cooking, and baking
- Commonly used in drinks and on biscuits, pancakes, and pastries.
