STORAGE & DISTRIBUTION

Our storage facilities are fully hygienic & temperature controlled in order to maintain the quality and safety of our products. We follow the Municipality and Hygiene control standards and principles strictly, to ensure customer satisfaction with our products.

Our well-planned distribution network and logistic system allows us to support and monitor the movement of our products. We have a fleet of modern and well-equipped refrigerated vehicles manned by experienced, trained, and hardworking drivers. This full-fledged distribution system enables us to supply the Juices in fresh/frozen conditions on time.

OUR PRODUCTS

We have a dedicated production area and system that ensures the quality of our products and accuracy of orders placed. Order customisation and special requests can be delivered easily with our unique preparation system; every action is tracked electronically to ensure traceability.
